# EQUAL ACCESS TO THE POWER OF VOLLEYBALL

Volleyball is more than just a game. We build and support projects that promote equality, education, inclusion, and empowerment, boosting equal access to the power of volleyball.

## Did you know?

That in many countries, players come to practice without shoes because they don't have the money to afford them? Shoes and balls are worth a full month of salary for many locals.

@LetsKeepTheBallFlying

## Did you know?

That volleyball is one of the most popular sports in refugee camps because of its' social character and community building effect?

@LetsKeepTheBallFlying

## Did you know?

In Nepal, girls (more often than boys) can't finish primary school, are married off before the age of 18, and face domestic or sexual violence?

## A Way To Give Back

We handed out donated jerseys to previously homeless girls. One of the girls told us her moving story. It was about begging, mistreatment, abuse, being sold and married off, fleeing, and living on the streets with drug addiction! She had a whole life behind her but was only 13 years old...

We gave her one of the donated jerseys and she put it on. All the girls wore the same jerseys. At that moment, she smiled from ear to ear and said: *"This is the first time I've belonged to a group because we all wear the same jersey."*

**JAN DE BRANDT** 

This is about all of us in the volleyball community giving back as a team. Life isn't about waiting for the storm to pass, it is about learning to dance in the rain! Together we can make a real difference.

**BRITT HERBOTS** 

These guys at Let's Keep The Ball Flying are doing a wonderful job! We should come together as a community and support them.

**NIKA DAALDEROP** 

As professional athletes, we receive incredible amounts of gear each season, which often are left untouched after. It is a great pleasure to give a new social purpose to these items.

**ANTHI VASILANTONAKI** 

Volleyball breaks down barriers! For children in refugee camps suddenly playing Volleyball together, is probably the most important part for me. You could see them break down the barriers and lose their shyness.
